

**THE  
INDIAN JOURNAL  
OF  
GENETICS & PLANT BREEDING**

**(Estd. 1941)**

Volume XXVIII

**1968**

SB  
123  
16

*Edited by*

PROF. S. RAMANUJAM

*Official Publication of*

THE INDIAN SOCIETY OF GENETICS & PLANT BREEDING  
NEW DELHI, INDIA.

# The Indian Journal of Genetics and Plant Breeding

## TABLE OF CONTENTS

**Volume XXVIII, No. 1 (March, 1968)**

	PAGES
Concepts of plant type and disease resistance in rice breeding. D. S. ATHWAL .....	1-11
Cytogenetical studies in <i>Phaseolus</i> . I. Autotetraploid <i>Phaseolus aureus</i> × tetraploid species of <i>Phaseolus</i> and the back-crosses. R. KRISHNAN and DEEPESH N. DE.....	12-22
Cytogenetical studies in <i>Phaseolus</i> . II. <i>Phaseolus mungo</i> and tetraploid <i>Phaseolus</i> species and the amphidiploid. R. KRISHNAN and DEEPESH N. DE .....	23-30
Effects of fast neutrons and gamma rays on castor. G. ANKINEEDU, K. D. SHARMA and L. G. KULKARNI.....	31-39
Path analysis of yield components in cotton. W. T. BUTANY, MUNSHI SINGH and R. B. MEHRA .....	40-43
X-ray induced mutations in French Bean. VISHNU SWARUP and H. S. GILL .....	44-58
Induced polygenic variability in two New Pusa wheats. P. N. BAHL, DALJIT SINGH and R. P. SINGH.....	59-65
Genetic analyses of quantitative characters in wheat using chromosome deficient lines. B. C. JOSHI and DALMIR SINGH.....	66-71
Differential sensitivity to gamma-irradiation during microsporogenesis in <i>durum</i> wheat. PULOMA A. DESAI.....	72-75
Some morphological changes induced by irradiation in diploid and autotetraploid toria. A. K. GUPTA .....	76-81
Inheritance of grain characters in rice. MD. H. RAHMAN and D. P. SRIVASTAVA .....	82-84
Grain weight of main shoot as an index of yield for non-irrigated wheat. R. D. ASANA, P. N. BAHL, P. N. SHARMA and B. KUMAR.....	85-90
Aphid resistance in barley. B. N. MURTY, K. B. L. JAIN, V. S. MATHUR, S. C. GULATI and D. SATYAWALI.....	91-93
Some floral mutants in fennel and <i>sowa</i> . V. P. TEWARI.....	94-95
Book Review .....	96

## Volume XXVIII, No. 2 (July, 1968)

	PAGES
Cytogenetical evolution of conifers. P. N. MEHRA.....	97-111
Isoenzyme differences in early growth of Chinese Spring ( <i>T. aestivum</i> ) with and without <i>Aegilops umbellulata</i> chromosome segment. M. D. UPADHYA .....	112-120
Apomixis in grain sorghums. N. G. P. RAO and L. L. NARAYANA..	121-127
Control of plant diseases—some possible approaches. M. V. RAO..	128-141
Lysine and tryptophan in protein fractions of <i>Sorghum</i> . M. S. NAIK..	142-146
Possible suppressors for Met-4 in <i>Schizosaccharomyces pombe</i> . A. M. M. ALI .....	147-150
Multivariate analysis of divergence in upland cotton. R. B. SINGH and M. P. GUPTA .....	151-157
A comparison of the frequency and spectrum of mutations induced by gamma rays and EMS in wheat. G. VARUGHESE and M. S. SWAMINATHAN .....	158-165
Genotypic and environmental effects on cytoplasmic male sterility. D. SHARMA and PRITAM SINGH .....	166-170
Computer programme for correlations involving up to 100 characters. O. P. JAIN .....	171-177
Genetic divergence and hybrid performance in linseed. I. J. ANAND and B. R. MURTY .....	178-185
Variation in chiasma frequency in <i>Triticum durum</i> . V. P. PATIL.....	186-189
Heterosis and inbreeding depression in components of grain and fodder yield in pearl millet. S. LAL and D. SINGH.....	190-195
Correlation between tassel and ear characters and yield in maize. P. P. SHARMA and N. L. DHAWAN.....	196-204
Variability in gram. S. CHANDRA.....	205-210
Inheritance in <i>Amarantus</i> . K. RANGASWAMI AYYANGAR.....	211
Variability and heritability of yield and other quantitative characters in <i>natu</i> tobacco. A. B. SASTRI and D. M. GOPINATH.....	212-215
Variability and correlation studies on yield and quality characters in <i>hirsutum</i> cotton. R. B. SINGH, M. P. GUPTA, B. R. MOR and D. K. JAIN .....	216-222
Heterosis for ascorbic acid content in <i>sem</i> . S. LAL.....	223-224
Variation and correlation in finger millet. M. C. PATNAIK.....	225-229

## Volume XXVIII, No. 3 (November, 1968)

	PAGES
Line $\times$ tester analysis of combining ability in sorghum. N. G. P. RAO, V. K. S. RANA and D. P. TRIPATHI.....	231-238
Genetic analysis of yield in a 6-row and 2-row varietal cross in barley. I. Genetics of yield and its primary components. J. P. TANDON, A. B. JOSHI and K. B. L. JAIN.....	239-251
Genetic analysis of yield in a 6-row and 2-row varietal cross in barley. II. Components of covariation between yield and its primary components. J. P. TANDON, A. B. JOSHI and K. B. L. JAIN....	252-261
Genetic divergence for ginning outturn and its components in upland cotton. R. B. SINGH and S. S. BAINS.....	262-268
Interspecific hybrids in <i>Abelmoschus</i> through ovule and embryo culture. V. R. GADWAL, A. B. JOSHI and R. D. IYER.....	269-274
Production and cytogenetic analysis of interspecific hybrids in <i>Lycopersicon</i> . REHANA MAJID, M. S. SWAMINATHAN and R. D. IYER	275-286
Distribution pattern of nodules in <i>Phaseolus</i> species and <i>Glycine max</i> . P. N. BHADURI and RATNA SEN.....	287-296
Enhanced mutation induction and recovery caused by nitrosoguanidine in <i>Oryza sativa</i> . E. A. SIDDIQ and M. S. SWAMINATHAN.....	297-300
Effect of mutagen and dose on the size of the mutated sector in rice. E. A. SIDDIQ .....	301-304
Estimation of missing values in a diallel cross. Y. R. AHUJA.....	305-312
Diallel analysis of locule number in the tomato. I. Y. R. AHUJA..	313-322
Diallel analysis of locule number in the tomato. II. Y. R. AHUJA..	323-331
Genetic stocks of barley resistant to loose smut. M. S. CHATRATH, K. B. L. JAIN and MADAN MOHAN .....	332-334
Histological studies in male-sterile and male-fertile <i>Sorghum</i> . A. YESODA RAJ .....	335-341
Cytoplasmic influence on meiotic chromosome behaviour in reciprocal hybrids of <i>Triticum durum</i> and <i>T. dicoccum</i> . V. P. PATIL and G. B. DEODIKAR .....	342-346
Effect of gamma radiation and ethyl methane sulphonate on seeds, cuttings and pollen in grapes. P. K. DAS and S. K. MUKHERJEE	347-351
Grain shattering in rice. H. K. MOHANTY and R. C. SAHU.....	352-358
Spindle abnormalities in <i>Saccharum</i> . M. P. ALEXANDER.....	359-364
Book Review .....	365

# The Indian Journal of Genetics and Plant Breeding

Vol. 28, 1968.

## SUBJECT INDEX

	PAGES
<i>Abelmoschus</i> , interspecific hybrids through ovule and embryo culture in	269
<i>Aegilops umbellulata</i> chromosome segment, effect on isozyme content in Chinese Spring wheat. ....	112
<i>Amarantus</i> , inheritance in .....	211
Aphid resistance in barley .....	91
Apomixis in grain sorghums .....	121
Ascorbic acid content in <i>sem</i> , heterosis for .....	223
Barley, aphid resistance in .....	91
Barley, genetic analysis of yield in a varietal cross in .....	239, 252
Barley, genetic stocks resistant to loose smut .....	332
Borlaug, Norman, E. ....	(3) i
Castor, effects of fast neutrons and gamma rays on .....	31
Chiasma frequency, variation in ( <i>Triticum durum</i> ) .....	186
Chinese Spring wheat with or without <i>Aegilops</i> chromosome segment, isozyme differences in .....	112
Chromosome deficient lines in wheat .....	66
Combining ability, in <i>Sorghum</i> .....	231
Computer programme for correlations .....	171
Conifers, cytogenetical evolution of .....	97
Control of plant diseases, some possible approaches .....	128
Correlation and variation in finger millet .....	225
Correlation studies in maize .....	196
Correlation studies in <i>hirsutum</i> cotton .....	216
Correlations, computer programme for .....	171
Cotton, multivariate analysis in .....	151
Cotton, path analysis of yield components in .....	40
Cotton, upland, genetic divergence for ginning outturn in .....	262
Cotton, variability and correlation studies in .....	216
Cytogenetical evolution of conifers .....	97
Cytogenetical studies in <i>Phaseolus</i> crosses .....	12, 23
Cytogenetics of interspecific hybrids in <i>Lycopersicon</i> .....	275

Cytoplasmic influence on meiosis in hybrids of <i>Triticum durum</i> and <i>T. dicoccum</i> .....	342
Cytoplasmic male sterility, genotypic and environmental effects on....	166
Diallel analysis of locule number in the tomato.....	313, 323
Diallel cross, estimation of missing values in.....	305
Diploid <i>toria</i> , morphological changes induced by irradiation in.....	76
Disease resistance and plant type in rice breeding.....	1
Diseases, plant, possible approaches in control of.....	128
Distribution of nodules in <i>Phaseolus</i> sp. and <i>Glycine max</i> .....	287
Divergence, genetic, in linseed.....	178
Dose of mutagen <i>i.r.t.</i> size of mutated sector in rice.....	301
<i>Durum</i> wheat, differential sensitivity to gamma-irradiation in.....	72
Ear characters, and yield, correlation of, in maize.....	196
EMS, effect on seeds, cuttings and pollen in grapes.....	347
EMS induced mutations in wheat.....	158
Embryo and ovule culture, of interspecific hybrids in <i>Abelmoschus</i> .....	269
Environmental effects on cytoplasmic male sterility.....	166
Estimation of missing values in a diallel cross.....	305
Evolution, cytogenetical, of conifers.....	97
Fast neutrons, effects on castor .....	31
Fennel, floral mutants in .....	94
Floral mutants in fennel and <i>sowa</i> .....	94
French Bean, X-ray induced mutations in.....	44
Frequency and spectrum of induced mutations in wheat.....	158
Gamma irradiation, differential sensitivity, in <i>durum</i> wheat.....	72
Gamma radiation, effect on seeds, cuttings and pollen in grapes.....	347
Gamma rays, effects on castor.....	31
Gamma ray induced mutations in wheat.....	158
Genetic analysis of quantitative characters in wheat.....	66
Genetic analysis of yield in varietal cross in barley.....	239, 252
Genetic divergence for ginning outturn in upland cotton.....	262
Genetic stocks of barley resistant to loose smut .....	332
Genotypic effects on cytoplasmic male sterility.....	166
Ginning outturn in cotton, genetic divergence for.....	262
<i>Glycine max</i> , distribution of nodules in.....	287
Grain characters, inheritance, in rice.....	82
Grain shattering in rice.....	352
Grain sorghums, apomixis in .....	121
Grain weight of main shoot <i>i.r.t.</i> yield in wheat .....	85
Gram, variability in .....	205
Grapes, effect of gamma radiation and EMS on seeds, cuttings and pollen in .....	347

Heritability of yield in tobacco.....	212
Heterosis for ascorbic acid content in <i>sem</i> .....	223
Heterosis for yield in pearl millet .....	190
Histology of male-sterile and male-fertile <i>Sorghum</i> .....	335
Hybrid performance in linseed .....	178
Hybrids, interspecific, in <i>Abelmoschus</i> through ovule and embryo culture .....	269
Hybrids, interspecific, in <i>Lycopersicon</i> , cytogenetics of.....	275
Inbreeding in pearl millet .....	190
Induced polygenic variability in wheat.....	59
Inheritance in <i>Amarantus</i> .....	211
Inheritance of grain characters in rice .....	82
Interspecific hybrids in <i>Abelmoschus</i> through ovule and embryo culture .....	269
Interspecific hybrids in <i>Lycopersicon</i> , cytogenetics of .....	275
Irradiation induced morphological changes in <i>toria</i> .....	76
Isozyme studies in Chinese Spring Wheat.....	112
Linseed, genetic divergence and hybrid performance in.....	178
Locule number, in tomato, diallel analysis of.....	313, 323
Loose smut, genetic stocks of barley resistant to.....	332
<i>Lycopersicon</i> , cytogenetics of interspecific hybrids in.....	275
Lysine in <i>Sorghum</i> protein .....	142
Maize, correlation between tassel and ear characters and yield in .....	196
Male-fertile and male-sterile <i>Sorghum</i> , histology of .....	335
Male sterility, cytoplasmic, genotypic and environmental effects on....	166
Meiosis in wheat hybrids, cytoplasmic influence on.....	342
Microsporogenesis in wheat, differential sensitivity to gamma rays.....	72
Millet, correlation and variation in .....	225
Missing values, estimation, in a diallel cross.....	305
Morphological changes induced by irradiation in <i>troia</i> .....	76
Multivariate analysis of divergence in upland cotton.....	151
Mutagen and its dose, effect on size of mutated sector in rice .....	301
Mutation induction and recovery by nitrosoguanidine in <i>Oryza sativa</i> .....	297
Mutations, X-ray induced, in French Bean.....	44
Nitrosoguanidine causing enhanced mutations and recovery in <i>Oryza sativa</i> .....	297
Nodules, distribution in <i>Phaseolus</i> sp. and <i>Glycine max</i> .....	297
<i>Oryza</i> see also rice	
<i>Oryza sativa</i> , mutation induction in and recovery by nitrosoguanidine in .....	297
Ovule and embryo culture, interspecific hybrids in <i>Abelmoschus</i> through ....	269
Path analysis of yield components in cotton.....	40
Pearl millet, heterosis and inbreeding depression in yield in.....	190
<i>Phaseolus</i> , cytogenetical studies in crosses of.....	12, 23
<i>Phaseolus</i> sp., distribution of nodules in.....	287
Plant type and disease resistance, concepts in rice breeding.....	1

Polygenic variability, induced, in wheat.....	59
Protein fractions of <i>Sorghum</i> , lysine and tryptophan in.....	142
Quantitative characters in tobacco, variability and heritability of.....	212
Quantitative characters in wheat, genetic analysis of.....	66
Resistance to loose smut, genetic stocks of barley.....	332
Review, Autmnization and its Genetic Interpretation.....	365
Review, General Entomology for Agricultural Students.....	96
Rice breeding, concept of plant type and disease resistance in .....	1
Rice, effect of mutagen on the size of the mutated sector in.....	301
Rice, grain shattering in .....	352
Rice, inheritance of grain characters in .....	82
Rice, <i>see also Oryza</i>	
<i>Saccharum</i> , spindle abnormalities in .....	359
<i>Schizosaccharomyces pombe</i> , possible suppressions for Met-4 in.....	147
Sector, mutated, in rice, effect of mutagen and dose on.....	301
<i>Sem</i> , heterosis for ascorbic acid content in.....	223
Sensitivity, differential, to gamma irradiation in <i>durum</i> wheat .....	72
Shattering of grain in rice.....	352
<i>Sorghum</i> , combining ability in .....	231
<i>Sorghum</i> , lysine and tryptophan in protein of .....	142
<i>Sorghum</i> , male-sterile and male-fertile, histology of .....	335
<i>Sowa</i> , floral mutants in .....	94
Spectrum and frequency of mutations induced by gamma rays and EMS in wheat .....	158
Spindle abnormalities in <i>Saccharum</i> .....	359
Suppressors for Met-4 in <i>Schizosaccharomyces pombe</i> .....	147
Tassel characters and yield, correlations, in maize .....	196
Tetraploid <i>toria</i> , morphological changes induced by irradiation in.....	76
Tobacco, variability and heritability of yield in.....	212
Tomato, diallel analysis of locule number in.....	313, 323
Toria, tetraploids of, morphological changes induced by irradiation in..	76
<i>Triticum aestivum</i> , <i>see also wheat</i>	
<i>Triticum dicoccum</i> , <i>see also wheat</i>	
<i>Triticum durum</i> , <i>see also wheat</i>	
<i>Triticum durum</i> , variation in chiasma frequency in.....	186
Tryptophan in <i>Sorghum</i> protein .....	142
Upland cotton, genetic divergence for ginning outturn in.....	262
Variability and correlation studies in cotton.....	216
Variability and heritability studies in tobacco.....	212
Variability in gram .....	205
Variation and correlation in finger millet .....	225
Variation in chiasma frequency in <i>Triticum durum</i> .....	186

## PAGES

Varietal cross in barley, genetic analysis of yield in.....	239, 252
Wheat, Chinese Spring, isozyme studies in.....	112
Wheat, cytoplasmic influence on meiosis in hybrids of.....	342
Wheat, <i>durum</i> , differential sensitivity of gamma irradiation in.....	72
Wheat, mutations induced by gamma rays and EMS in.....	158
Wheat, genetic analysis of quantitative characters in.....	66
Wheat, non-irrigated, grain weight of main shoot as an index of yield for	85
Wheats, New Pusa, induced polygenic variability in.....	59
X-ray induced mutations in French Bean.....	44
Yield components in cotton, path analysis of .....	40
Yield, index for non-irrigated wheat, grain weight of main shoot as.....	85
Yield, tassel and ear characters, correlations, in maize.....	196
